

## **ORPINGTON CAR PARK ACTION GROUP (“OCPAG”)**

### **AIMS AND OBJECTIVES**

The following is an extract from our constitution:

- A) To ensure that local residents will not be overshadowed by a building on the site of the existing multi-storey car park in Station Road, Orpington that is of excessive bulk, and not disturbed by 24 hour operation.
- B) That any additional traffic generation as a result of the new development does not worsen traffic congestion in nearby roads to the disadvantage of local residents, local businesses and the residents of Orpington and Bromley.
- C) That adequate public parking will be provided for customers and staff of local businesses and retailers such that new public car park provision is no less than the existing peak usage.
- D) That any proposed development makes a positive contribution to the development of the local economy by supporting the needs of local businesses in Orpington.
- E) That any retail development element is complementary to and not over dominant of other retailers in the High Street, and that a mixed development that improves the facilities and attractiveness of Orpington Town Centre is put in place.
- F) To pursue any other policy, put forward or sponsor candidates for any elections, or support any other democratic group or party, that may be in the interests of the members of the Association.
